Eggless Cakes

Who knew you could bake without eggs? We did! A chocolate eggless cake would do great with a hot cup of tea.

Fruit Salad

What's a party without fruit salad? This is where we really get creative with the presentation! We will find a fruit that represents every colour under the sun to be in here.

First, it's the creamy texture. Second, the notes from the unique blend of spices and then the alcohol hits. Don't take our word for it, try it for yourself. Best served on the rocks!

If you really want to feel like you're in paradise, then this is the one for you. Not only are we gifting you with exotic flavours but by the time you're finished you'll be dancing without a care in the world. This isn't one for the faint hearted.

Same great taste as our Rum Punch, just without all the rum. We're sure you'll still be dancing just because of how great it tastes.

With a fiery attitude and full of flavonoids (they're great for keeping you healthy) the Hibiscus flower proves its worth in this drink
